DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on May 5, 2003 was filed after the mailing date of the Advisory Action on January 15, 2003. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Defective Appeal Brief

2. The brief contain arguments of the appellant with respect to Group V, which rely on a declaration of Mr. Karlis Vecziedins. This declaration was filed at the same time of the filing of the brief.

3. The declaration under 37 CFR 1.132 filed April 25, 2003 is insufficient to overcome the rejection of claims 14-15, and 38-40 based upon Leger et al. in view of common knowledge in the art as set forth in the last Office action because: the declaration had not been previously considered by the examiner during the prosecution of the case. This declaration brings new issues not previously present, such as the construction and operation of ultraviolet light sources, which constitutes the intended use of the claimed invention.

4. It also refer(s) only to the system described in the above referenced application and not to the individual claims of the application. Thus, there is no showing that the objective evidence of nonobviousness is commensurate in scope with the claims. See MPEP § 716.

5. In view of the foregoing, when all of the evidence is considered, the totality of the rebuttal evidence of nonobviousness fails to outweigh the evidence of obviousness.
